Dantagnan - Shannon Nuptials Held At Our Lady of the Gulf Church

At a nuptial Mass on Monday, Our Lady of the Gulf Catholic Church was the scene of the marriage of Miss Julie Dantagnan, daughter of Mr. and Mrs. Adolph G. Dantagnan and Mr. Maurice D. Shannon, III, son of Mr. and Mrs. Maurice D. Shannon, Sr., of Morgan City, La. Gladioli and chrysanthemums in tall white baskets were used as church decorations.

The double ring ceremony was performed by Father John New Orleans, La., a cousin of the groom.

Mr. Dantagnan gave his daughter in marriage.

She was given in a beautiful traditional wedding gown of tulle and satin with long fitted bodice and trailing full skirt. The design of her draped rose point, bell-shaped veil was repeated in a hand beaded design on her dress. She carried a mother of pearl prayer book and lilies of the valley.

Mrs. Lee Hayden, of Norman, Oklahoma, sister of the bride was her Matron of Honor. Bridesmaids were Misses Laurie Curet of Kila, Miss Nathalie Winchester of Franklin, La., cousin of the groom, and Ray Ann Witter of New Orleans. They wore long full skirted dresses of soft flowing blue iridescent taffeta with scalloped neckline. Their mittens, hats and cummerbunds were of a darker shade of blue with matching shoes.

They carried old fashioned bouquets of small chrysanthemums. Mr. Shannon was his son's best man. Groomsmen were Lee Hayden, Brice Causey of Homer, La., Ernie Roy Saurz of Lafayette, La., also Leonard Wise and William Collins of Morgan City, La.

The bride's mother was chiefly attired in a frock of pale blue cotton lace with black velvet accessories and a white orchid corsage.

The mother of the groom wore a toast lace with matching accessories and a green orchid corsage.

A reception was held at the Dantagnan residence, on Washington Street.

The bride and groom were assisted in receiving their local and out of town friends and relatives by members of the wedding party and their parents.

The couple left on a motor trip to Florida. Upon their return they will be at home in Baton Rouge, La., where Mr. Shannon is a student in business administration at L. S. U.

For her going away outfit the bride wore a wool violet sheer wool suit, white beaver hat, white gloves and shoes and bag of British tan. Her corsage was a brown orchid.

The bride is a graduate of St. Joseph's Academy and attended Perkinson Jr. College. The groom is a graduate of St. Stanislaus.

Miss Perniciaro Weds Here Sunday

Miss Dominica Joyce Perniciaro, daughter of Mr. and Mrs. Lucien Perniciaro, and Fabian Buquoi, son of Mr. and Mrs. E. Buquoi, Sr., were married in a double ring ceremony which took place Sunday afternoon at five o'clock at Our Lady of the Gulf Catholic Church, Father Leonard officiating.

Vows were exchanged in a setting of beautiful flowers in tall floor baskets and gleaming candelabra against a background of palms. A program of nuptial music was rendered by Mrs. Theodore Thomas, vocalist, and Prof. Hammersbach, church organist.

The bride was given in marriage by her father. She wore a beautiful gown of all over lace and satin designed along princess lines, trimmed in nylon net and sequins of pearl. A crown of tiny pearls held finger tip veil and she carried an old fashioned bouquet of white roses with an orchid center.

Mrs. Jake Morreale, aunt of the bride, attended as Matron of Honor and Miss Jeanne Peltz, the bride's sister was maid of honor. Bridesmaids were Misses Beatrice Chinché, Francis Compretta, Mary Frances Ladner and Joyce Brown. Their waist length, princess style gowns were of raspberry crystal and they wore pearl and net head ornaments, white pearl trimmed gloves and shoes to match gowns. They carried old fashioned bouquets of asters and chrysanthemums in matching color.

The junior bridesmaids were Dorothea Buquoi, sister of the groom and Margaret Pulizzano, cousin of the bride. Their dresses were of aqua crystal tulle, copies of the bridesmaids' and they carried bouquets of asters and chrysanthemums. The little flower girl was Edith Ann Perniciaro, sister of the bride. She was dressed in a white lace, off the shoulder gown and carried a basket of flowers. The ring bearer was Jeff Morreale, cousin of the bride.

son of the bride.

The groom's father attended him, as best man and the groomsmen were Mr. Joseph Pulizzano, Jim Ratcliffe, Harold Johnston, E. J. Long and Charles Perry. Usners were Jake and Jackie Morreale. Serving on the altar were Richard Morreale and Dickie Perry, cousin and friend of the families.

The bride's mother wore a figured dress of pink and orchid with white accessories and the groom's mother was gown in gray with black accessories. Both wore orchid corsages.

Following the wedding a reception was held at the K. O. Hall. The bride's mother and father assisted in receiving the guests. The hall was decorated in same flowers as the church and a huge wedding cake centered the dining table.

For her travel outfit the bride chose a light blue wool suit, white nylon and lace trimmed blouse and navy blue accessories.

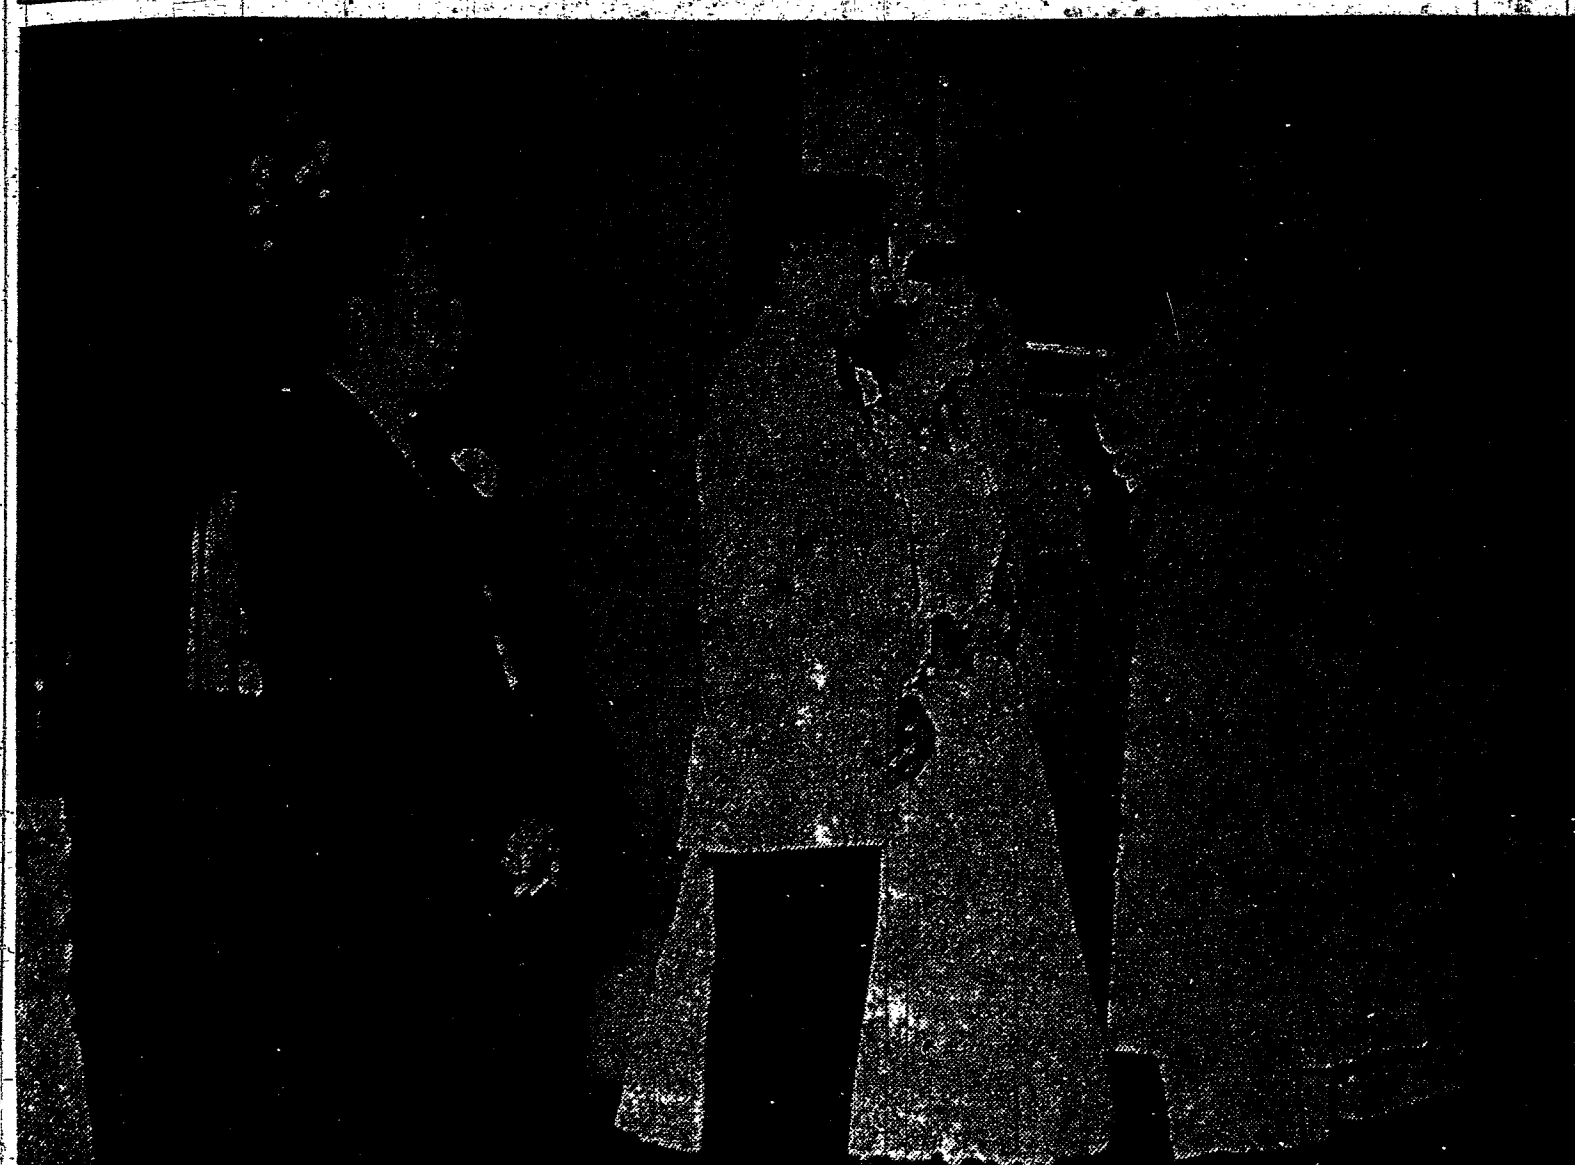

The young couple left on a honeymoon trip to an undisclosed destination. They will reside in Staten Island, N. Y., where Mr. Buquoi is stationed as a member of the U. S. Coast Guard.

County Agent Notes

Do you have a place to store your corn? Is the storage facility safe rat and weevil proof. In order to qualify for government loans on stored corn, the Commodity Credit Corporation has specific requirements for grain storage that must be met. Does your storage house or bin meet these requirements?

If you take a few precautions, corn can be stored safely on the farm for more than a year. Particular attention must be paid to the moisture content of the corn. During warm weather, corn can be stored safely only when the moisture content is less than 14 percent. Excessive moisture will cause souring, heating or molding and will also promote insect infestation.

Only clean grain should be placed in storage. Cracked grain, screenings, chaff and dust make for high insect infestation. Your corn must be protected from rats, mice, birds and insects.

GARCIA-SMITH NUPTIALS HELD—Carl Garcia, son of Mr. and Mrs. Arthur Garcia and Melinda Smith, daughter of Mrs. Martha Smith, are shown during their wedding ceremony held Saturday in Our Lady of the Gulf Church. Father Hugh Taylor officiated. Also pictured is Sam Peterson, who served as the groom's best man.

Melinda Smith And Carl Garcia United Here Saturday Morning

Miss Melinda Smith, daughter of Mrs. Martha Smith and the late Mr. Smith became the bride of Carl Garcia on Saturday morning. The double ring ceremony was performed at Mass by Father Hugh Taylor at 10 o'clock in the morning.

Amid a setting of white gladioli and mums in tall white baskets the bride was given in marriage by Mr. Alcine Sautier, a close friend of the family.

Her full skirted ballet length wedding gown was of white chantilly lace over ice blue taffeta and tulle. The veil of illusion was held in place by a circlet crown of seed pearls and chantilly lace. She carried a bouquet combined of an orchid and white stephanotis.

The only attendants at the wedding were Miss Patti Smith, sister of the bride and Mr. Sam Peterson. Miss Smith wore a waist length, off the shoulder with matching stole dress in orchid chantilly lace made very bouffant over tulle and tulle underskirts. Her hat and shoes were in matching color and she held an old fashioned nosegay bouquet of American Beauty roses and tulle.

During the ceremony bride

selections were rendered by Mrs. Theodore Thomas, vocalist, and Prof. Hammersbach at the organ.

A reception followed immediately followed the wedding ceremony at the new Girl Scout house on the parish grounds.

The young couple were assisted in receiving by the wedding party, their parents and the bride's maternal grandmother, Mrs. Alice Miller of Austin, Texas.

Mrs. Smith chose for her daughter's wedding a dress of beige cotton lace with brown accessories and she wore a corsage of brown chrysanthemums.

The groom's mother was lovely in navy blue crepe and tulle with matching accessories and an orchid corsage.

Later in the evening the bride and groom left by automobile on a honeymoon trip to Florida. The bride's "going away" costume was a blue cotton tuxedo suit dress trimmed in black velvet with white gloves. She wore her bridal bouquet orchid as a corsage.

Upon their return the young Garcias will make their home in Bay St. Louis where he is presently employed with the City.

ing the screen and the time thus lost often plagued farmers from using a cup every day.

Lately, a new idea in cup design have been brought forth. The most recent is the substitution of a shallow black plate for the screen, in the cup.

The plate has a hole in one edge to allow milk to flow down into the cup. As the milk passes over the black background, any abnormal milk lumps, flakes or strings in the milk or any blood is easily seen against the black background. The new cup has the additional advantage of being easily cleaned and ready to be used on the next animal.

Daily use of the strip cup will prevent any chance of mastitis becoming well entrenched in a herd before being caught. It will also prove excellent as an aid to milk let down and will eliminate low butterfat, high bacteria foremilk.

CARD OF THANKS

We wish to express our deep felt appreciation to our many friends for their kind expression of sympathy in the passing of our husband and father, Forest N. Ladner.

USE OF STRIP CUP WARNS OFF MASTITIS

A strip cup properly used, has always been a good friend to the farmer in keeping his cows free of mastitis. Regular use of a strip warm of the onset of mastitis and enables the farmer to take precautionary steps to cut the infection short.

Strict Tests Through Every Process Assure Safety of Salk Polio Vaccine

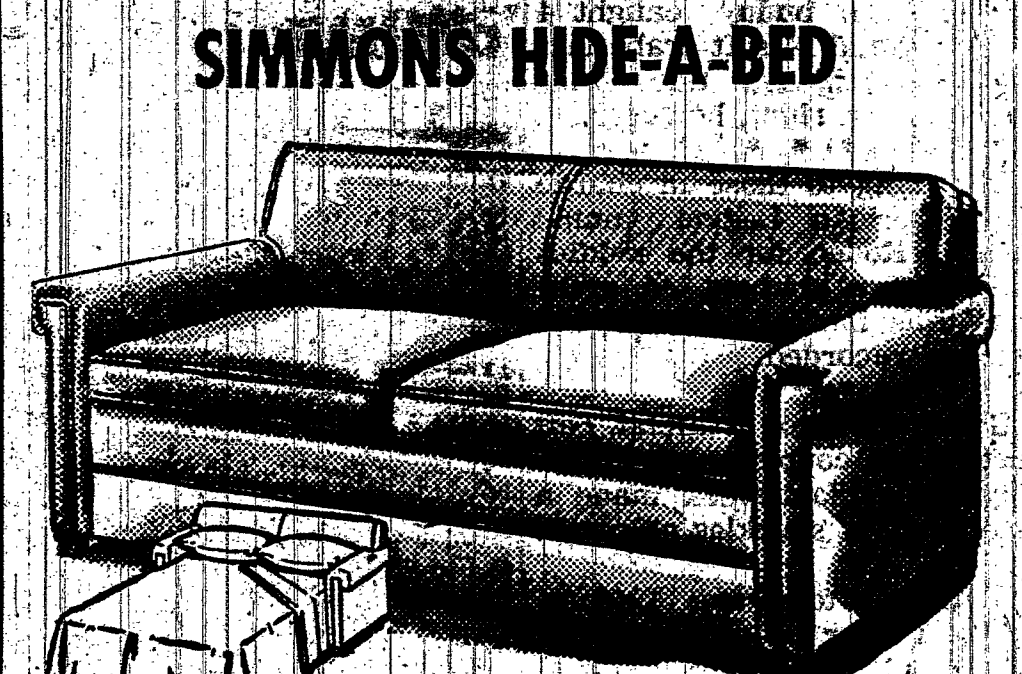

For the first time in history, a vaccine is protecting millions of human beings from paralytic polio. While the Salk vaccine will not work in every case, American children are being safeguarded against the dread disease, with no more risk than they would take in a vaccination against smallpox or a typhoid shot. The Salk vaccine must pass elaborate tests under the watchful eye of a government inspector at every stage of production. Then the final packaged vaccine is approved by the U.S. Public Health Service for distribution. Here are shown a few of the steps that assure American parents their children are being given a safe vaccine.

This technician is filtering dead cells and all other foreign matter from polio virus after it has grown on animal tissue in glass containers.

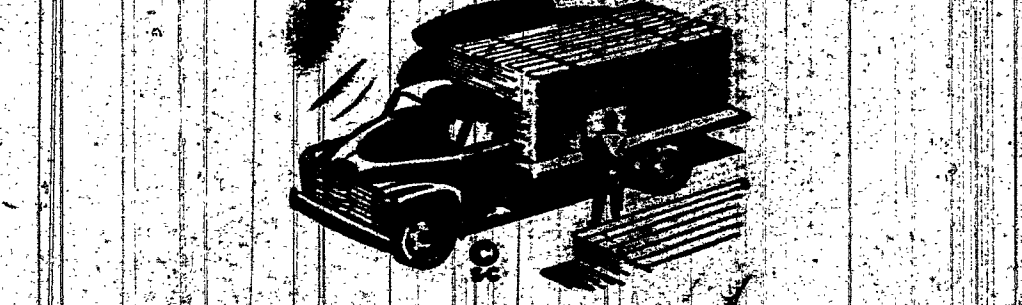

Virus is "cooked" in tank with formaldehyde (from bottle) until it is rendered harmless, after which it must pass exacting tests.

DAIRYING
The dairy cow is the hardest working animal on any farm. She works 24 hours a day seven days a week to produce milk for you to turn into cash farm income.

The dairy cow has to have help to make the most of her ability to produce milk. She has to have shade in the summer. Shelter in the winter, plenty of clean water at all times and plenty of good high quality roughage to make production more profitable.

Make this roughage and the concentrate feeds that you give

COTTON GIN FIRES

Wooden matches cause one out of every three gin fires during the harvest season. Sometimes the matches are carelessly dropped into pick sacks or trailers by hand pickers. They are then ignited by friction during the ginning process and set the cotton lint afire.

These fires do not just endanger the gin. Smoldering lint, pressed undetected into a bale, may burst into flame hours later in a boxcar or warehouse crowded with other bales.

Soil-cement paving is ideal for residential streets. It eliminates mud, dust, ruts, bumps and chuckholes. It is an economical, durable, all-weather pavement. ECONOMY. Street soil (or old granular pavement) is about 85% of the material needed. Mixed with portland cement and water it forms a base. A bituminous surface completes the pavement. Records prove that maintenance cost is extremely low. DURABILITY. In all parts of the country—from 40° below zero to more than 100° above, from arid regions to areas exceeding 60 inches of rain a year—soil-cement has proved its durability through long years of service. So, if you're tired of rough, dusty, unsightly streets insist on soil-cement—today's best low-cost pavement.

Rocks, Tigers Face Indians, Pirates In Seasons Openers This Week End

Biloxi Favored to Down S. S. C.; Rhodes Artigues Lead Attack

The St. Stanislaus Rockchaws open their football season tomorrow night against the Biloxi Indians in their opponents' backyard.

The Rocks, sporting a much lighter and much thinner team than last year's squad which defeated Biloxi will enter the game a "decided underdog" against the very fast Indians. Biloxi is noted for having one of the fastest backfields in the Big Eight Conference, with Strum and Bond recognized as two of the top speedsters in the entire state.

Two junior lettermen will lead the Stanislaus offensive attack. Kenny Artigues, quarterback and Billy Rhodes, a halfback, are the top threats in the Stanislaus backfield.

Artigues lettered last year at quarterback, although he saw mostly defensive action.

Rhodes is the cutaway runner who showed great promise last year and who has gained a little speed over the summer months.

Walter Gex, who was scheduled to be the other letterman in the regular lineup this season is definitely out for the season.

An operation on his injured knee did not respond to treatment as expected and he will be sidelined.

Tackle seems to be the most solid spot in the Rocks' lineup. Leon Fazio, a standout last year and Ed Hargrove, who lettered in the backfield this past season, fill these positions very adequately.

Bob Pfeiffer has been converted from end to a halfback in an attempt to fill the hole left by Gex's injury.

Mitchell DeCuir, a heavy Texan, has also been transferred from the line into the backfield. He will see duty as the starting fullback.

Coach Farley Day, who enters his fifth year as head coach, at Stanislaus, said, "The boys are in good spirit and are in good physical condition."

"Depth is one of our shortcomings. We have inexperienced reserves. Our main concern in the Biloxi game is with the speed of the Biloxi backfield. They also should have a good passing game."

"They only lost a few men from last year's squad and are considered a very strong team in the Big Eight."

The outstanding reserves for Stanislaus and boys who should see a lot of action both offensively and defensively are William Boudreaux, at end, Tommy Monti, halfback, J. E. Lolascano, halfback, Jimmy Grace, halfback, who at this time is on the injured list, John Matrang, who is doubling at center and tackle, and Larry Mathes, quarterback.

The starting lineup for the Rockchaws in the Biloxi game will be as follows:

Ends—Birch, Wilbert and Don Mooney.

Tackles—Leon Fazio and Ed Hargrove.

Guards—Pat Mooney and Gerald LeBlanc.
Center—Kenny Whitmann.
Quarterback—Kenny Artigues.
Halfbacks—Billy Rhodes, and Bobby Pfeiffer.
Fullback—Mitchell De Cuir.

V A Outlines Loan Program

The 84th Congress has extended the Direct Loan Program of the Veterans Administration for eligible veterans of World War II and the Korean War, who live in areas where private GI loan financing is not available, until June 30, 1957.

Under a new law an eligible veteran of World War II or the Korean War may qualify for a direct loan from the VA for the following purposes:

A. To purchase or construct a dwelling to be occupied by him as a home;

A. To purchase a farm on which there is a farm residence to be occupied by him as his home;

C. To construct on land owned by him a farm residence to be occupied by him as his home;

D. To repair, alter, or improve a farm residence or other dwelling owned by him and occupied by him as his home.

No direct loan from the VA may be secured for any purpose:

1. If the veteran is able to have his proposed long-term loan financed by private capital, or by some public governmental lending agency other than the VA, at an interest rate of 4 1/2%, or less;

2. If the veteran is not a satisfactory credit risk;

3. If the veteran's financial statement covering present and anticipated income and expenses indicates that he will not be able to make his loan payments satisfactorily.

No direct loan from the VA may exceed \$10,000.

EXECUTIVE TALK

Lesson for September 11, 1955
THE City of Jerusalem was a slum. There is no other good word for it. The people, poor and fed and "sacred," were existing in the midst of rubble. Today in Korea the cardboard shacks are coming down, more permanent houses are being built; but in Jerusalem there was no rebuilding. Everything was left just as it was after the war. How long has that been? One hundred and forty-one years! Four generations—as far back as Nehemiah's time as 1812 is from us. Suppose the city of Washington had never been rebuilt, since the British burned it in the "war of 1812"? Nehemiah was amazed and shocked when he heard about it. Like all prosperous Jews who lived in Persia, he had supposed everything was all right back in the motherland. When they told him how things actually were, he first cried, but then he acted.

Ludger Mauffray spent the weekend with his mother, Mrs. J. O. Mauffray. Monday he and his brother, Alden, fished at Pearl River and caught some nice speckles.

La France's Fishing Camp, among the many fishing camps, were very busy places over the weekend. They reported that every stick available was put into service and crowds of people kept coming. Some nice catches of different fish were made.

Dan Haggerty and three sons, Danny, Mike and Pat of New Orleans had a great time Monday fishing at Bayou Caddy. The boys said they caught a few but Uncle Russell added to the catch.

Col. Deitrich, visiting at St. Stanislaus College and Teddy Stechmann caught a few green trout and perch up Jordan River Saturday. Teddy just had to try out that new glass fly rod.

A few soft crabs and flounders are still being caught, Vic Fouert and buddy caught 4 flounders and 24 soft crabs last Friday night. The tides have not been just right, however.

According to those in charge the American Legion Annual Fishing Rodeo for the kiddies was quite a success. A great time was had and some good catches recorded.

Good news to artificial bait casters. A couple on the highway bridge last week made a nice catch of speckles on plugs.

According to Dave Ladner, bridge tender on the Hi-way bridge, night fishing is being done regularly. Yep, some fish are being caught under the lights!

Competition

Nehemiah, armed with a royal commission—for Palestine was now a part of the great Persian Empire—turned out to be one of the most remarkable executives in history.

He went to Jerusalem as governor but he saw it was no royal city. In those days you could not more have a city without a wall around it than you can have a city today without paved streets, or telephones! The wall was an absolute number one must. No doubt previous governors had done nothing about it. Nehemiah at once went to work on this problem. In 52 days the wall was completed; 52 days to do what for 93 years (since the first "Return") every one else in charge of Jerusalem had failed to do. How did Nehemiah succeed where so many others had failed—or not even tried? The answer, in one sentence, is: Nehemiah was the kind of executive who can make hindrances and handicaps work for him instead of against him. One of the handicaps obviously was the many jealous divisions among the people. The class spirit can be shown just as easily in a group of castaways on a desert island, as it can in New York. Nehemiah knew all about this; and he organized his wall-builders by groups according to their occupation. The goldsmiths built here, and the priests built there, and so on. No group wanted to be outdone by any other group, so they all pushed on till it was done. It takes healthy competition to bring out what people can really do.

Rear Can Be Useful
Perhaps the big reason why the wall had never been built was that the people, ill-equipped and leaderless, knew that their watchful enemies would not want Jerusalem to rise again. They were afraid of "reprisals" or raids from one place or another, if they really set to work to build a real city again. Now Nehemiah did not wait till they got over being scared. They never would. So he (so to speak) tied that scare to their coat-tails, like a pack of firecrackers. He ordered the citizens, as far as it was practical, to build the

part of the wall nearest to where they lived. Every man and woman (yes, there were women) working on the wall would think: If this section of the wall goes down, my own house will be the first one pillaged! So, of course these scared people worked like mad, each one determined that if the wall gave way anywhere, it wouldn't be near his house.

Parting Human Nature to Work
All that business about the spears, and other army equipment—ordering half the people to stand by in battle dress while the rest worked on the wall—many have scared off the enemy raiders; but it did something else: it got the wall built in an amazingly short time. Just the sight of those spears would not put every body into high gear. They wanted to finish that wall before the battle started. It never started, but Nehemiah's dramatic mobilization kept those amateur wall-builders going from dawn till dark. So Nehemiah showed in his time what the best executives have always shown: the skill to use human nature as it is, on the hoof. Executives—governors, presidents, heads of corporations, bishops—could doubtless get better results with better people.

Holden Monti, Favre Big Three of Bay High Backfield

The Bay High Tigers begin their football season against their annual rival, Pass Christian, tomorrow night in the Pirate's stadium.

Bay High enters this game with a powerful and fast backfield, led by letterman Henry Monti, Tommy Holden and Hugo Favre.

The quarterback post is a tossup with Wayne Allison and Grady Perkins vying for the starting honors.

Two veterans, Bobby Boudin and Ronald Maurigi, make the tackle spots the strongest on the line.

Coach Lance Lumpkin, who is entering his second year as head mentor of the Tigers, said, "We expect a hard tussle out of Pass Christian. They have as many returning lettermen as we do. We had to weaken some of our spots to strengthen others left vacant by graduation."

These spots in particular are the two terminals.

Last year Kent Sellier and Clayton Adams, named as two of the top ends in the De Soto Conference filled these positions with ample speed, power and experience.

But this year the situation is different. John Perkins has been moved from guard to one end and Fred De Hann has been transferred from tackle to fill the other hole. Larry Landrum, an All-Star guard from last season, was moved to an end spot, but he has injured a knee and may be lost for the season.

Coach Lumpkin continued, "It should be a good ball game but we expect to come out on top. The boys are in good spirit and are rounding into pretty fair physical shape."

NEW FACILITIES ARE PLANNED FOR POPULAR GRENADA LAKE

Plans to provide adequate facilities for the estimated 150,000 visitors who are annually taking advantage of the recreational offerings of North Central Mississippi's four great flood control lakes are currently being undertaken by the U. S. Corps of Engineers and the Mississippi Park Service.

The first of the four lakes to be completed, Sardis, had an attendance of 500,000 in 1954 following completion of modern park facilities, including overnight lodging, boat landings and picnic and camp sites.

Grenada Lake, opened in January 1954, is expected to nearly equal that record by the end of this year. A total of 20,000 visitors were recorded during the July 4th holiday alone.

Both the Corps of Engineers and the Park Service are presently concentrating on this popular recreational area. Two parks to provide accommodations for both white and colored vacationers already are underway and expected to be completed by February 1, 1956.

Meantime, the Corps of Engineers, with headquarters in Vicksburg, has advertised for bids on three major recreational sites and four supplemental boat rental areas. Bids will be opened November 14th.

The main recreational sites, which will be leased on the basis of the best proposal for development, are at Grenada Landing at the South end of the Dam; Choctaw Landing on the North shore of the lake at the entrance to the Yalobusha River; and Suna Turkey Creek, north on the upper arm of the Suna River. Leases are for 25 years with options to renew.

The Grenada Landing site, with 18.5 acres, calls for about the same facilities, except that more emphasis will be placed on fishing. The Suna Turkey Creek site also will be devoted principally to fishing with about the same facilities as offered at Grenada and Choctaw Landings.

Successful bidders will have two years in which to complete accommodations. However, initial boat facilities must be completed within 45 days from the time a lease is granted.

All three sites are located on permanent water level areas. The four supplemental boat rental sites are Suna's Crossing, with 3 acres; Young's Landing, with 19.1 acres; Grovesport Crossing, with 7 acres; and Upper Yalobusha Landing, with 3 acres. The latter three are for high water boat landings.

Eventually, the Corps of Engineers plans to encourage development of similar facilities at Enid and Arkabutla, between Grenada and Hernando on U. S. Highway 61.

In addition, these facilities are expected to substantially increase attendance at the four lakes.

Grenada Lake and its tributaries the Yalobusha and Suna Rivers afford some of the best fishing to be found in North Central Mississippi. Although the lake was only opened in 1954, excellent catches of crappie, bream, bass and catfish already have been recorded.

Swimming beaches at Grenada Lake have attracted throngs of summer vacationers during the past few months. A total of 20,000 persons visited the lake July 4th and attendance this year is expected to reach 500,000.

with an inland recreational area second to none in the state. Grenada Dam and Lake was built at a cost of \$31,200,000 and is part of the overall project of the Engineers to control floodwaters of the Yazoo River Basin at the headwaters of the Yalobusha and Suna Rivers at Grenada, the Yokena at Enid, the Tallahatchie at Sardis, and the Coldwater at Arkabutla.

The Grenada Lake is Y-shaped and when filled to spillway crest extends up the Yalobusha River Valley a distance of 19 miles, with a surface area of approximately 100 square miles. The minimum level of the lake extends 7 miles upstream from the dam, having a surface area of 15 square miles.

The dam itself is an earth fill type rising 80 feet for a distance of 13,900 feet to form the western shore of the lake.

Seven picnic areas already have been set up and the lake

has been stocked with crappie, bream, bass and catfish. Fishermen from Mississippi and surrounding states already are reporting excellent catches.

The Hugh White Park for white citizens will when completed provide a lodge, 10 duplex cabins, camp sites and boat landing docks and swimming facilities.

The Carver Point Park for colored citizens will have a lodge, group sleeping quarters, camp sites, boat landing docks and swimming facilities.

Meantime, several state-wide organizations are constructing camps on the lake. These include the Future Farmers of America and the Girl Scouts.

Grenada Lake, just four miles east of Grenada, is easily accessible to residents from all of North and Central Mississippi. It already is proving to be one of the most popular of the lakes

Teams of Specialists Determine Needs of Kenny Polio Patients

Minneapolis, Minn. — Because no single individual can cope with all the problems posed by a severe case of poliomyelitis, the Sister Elizabeth Kenny Foundation employs all the knowledge, ingenuity and skills that modern science can provide to meet the rehabilitation needs of patients hospitalized at its Kenny treatment centers across the country.

Doctors and Kenny Therapists play the major role in rehabilitation. Other highly-specialized personnel, ranging from laboratory technicians who can measure the exact quantity of oxygen in a patient's blood to individuals who design and build to order gadgets that can be substituted for missing muscles, are pressed into service.

As the patient progresses, social workers and job-placement experts work with him, his family and his employer to effect a successful adjustment and to help locate employment within the limits of his ability.

Agricultural Leaders Endorse Savings Bonds For Farmers

The State Agricultural Coordinating Council, at a meeting recently, passed a resolution endorsing the Savings Bonds Program and recommending that farmers buy "S" Bonds as a means of building a liquid reserve. The Council consists of the heads of the various Agricultural Agencies of the State.

The resolution was submitted by Boswell Stevens, President, Mississippi Farm Bureau Federation and State Agricultural Savings Bonds Chairman. Mr. Stevens pointed out that the many hazards of nature and market conditions makes a financial reserve necessary in order to meet unforeseen emergencies. "The modern farmer is a businessman," he said, "and uses considerable capital in his operation. With the high cost of mechanized farming and a high depreciation rate in his machines, a liquid reserve should be set aside to hedge lean years. U. S. Savings Bonds are an ideal investment for such a fund."

VA Issues Check List For Students

By filing applications early, veterans will help prevent delay in processing their papers, VA said.

Application forms may be obtained at any VA office. The completed application, along with a photograph or certified copy of the veteran's separation paper, should be sent to the nearest VA regional office. The papers should not be sent to VA headquarters in Washington, D. C.

The first item is the choice of a goal, and of a training program that will lead to that goal. VA explained that since

the law allows a veteran only one change of program, he should make sure he chooses correctly the first time.

The second item is to be certain the course has been approved for Korean GI training by the state in which the school is located. This information is available from any VA Regional Office. It is NOT available at VA headquarters in Washington, D. C.

The third point is for veterans to complete arrangements for admittance to the school of their choice before filing applications with VA. This step, VA explained, will save time and trouble, since veterans must know beforehand whether they can meet a school's requirements for admission.

VA predicted that two-thirds of a million Korean GI veteran trainees will be in the nation's schools and training establishments this fall.

Former State Times Editor Chosen MSCW Public Relations Aid

Columbus, Miss., Aug. 29 - Guidi, Cean Muller, former assistant Sunday editor of the Jackson State Times, will be assistant to the director of public relations at Mississippi State College for Women, President Charles P. Horgarth announced today.

An honor graduate of Mississippi Southern College, Mrs. Muller succeeds Prof. Jim Hart, who resigned to accept a position at North Illinois State College at DeKalb, Illinois.

Some of the journalistic achievements of the new MSCW publicity writer include serving as executive editor of a national award winning weekly and meriting the outstanding journalism award for 1954 from a national press association. She was awarded a graduate teaching fellowship last year at Mississippi Southern and did graduate work this summer at Indiana University at Bloomington.

Her selection as one of four seniors in the 1954-55 Hall of Fame climaxed a list of college honors, including Who's Who in American Colleges and Universities.

The law allows a veteran only one change of program, he should make sure he chooses correctly the first time.
